Permit Procedure*:

- Complete and sign a *Building Permit Application*.
- All contractors must be registered, licensed and bonded accordingly.
- Supply 2 copies of your plat of survey with the scaled location indicated.
- Supply a set of the complete manufacturer's specifications.

*Permits are required for all antennas or towers over 1 meter in diameter.

Requirements:

- Antennas may be erected to a height of 45 feet. Antennas between the height of 45 and 60 feet shall be permitted only as a Special Use.
- Within any Residential Zoning District, the base of any antenna or communications tower shall be within the setback requirements for accessory buildings within that district, and shall in no case be allowed in front yards. In any other district, the base of any antenna, satellite dish or communications tower shall meet the setback requirements of the principal structure.
- Antennas may not be located in any easements.
- No part of a communications tower, antenna, satellite dish or combination thereof, shall extend beyond either:
 - Any horizontal lot line on which it is located; or
 - The vertical projections of the lot line of the lot on which it is located, under any condition, rotation, or position thereof.
- Must comply with all manufacturer's specifications.

Inspections:

- A footing/base inspection is required for all ground mounted antennas and satellite equipment.
- A final inspection is required upon completion of work.
- Call Code Enforcement at (847) 781-2631 to schedule inspection appointments.
